

TESTLY AI — AUTOMATED QUALITY REPORT

Intelligent autonomous QA agent test execution details

Target URL:	https://chatgpt.com/
Execution Browser:	Chrome
Timestamp:	2026-07-25 15:51:42
Test Coverage Summary:	Total: 5 Passed: 3 Failed: 2 (60.0% Success)
Report Status:	ACTION REQUIRED

Test Execution Summary

ID	Test Case Name	Category	Status	Duration
TC-001	Verify Main Homepage Load and Responsive Structure	Functional / SEO	FAILED	0.55s
TC-002	Validate Link Integrity & Hyperlinks (11 links)	Functional / Navigation	PASSED	0.21s
TC-003	Audit Image Resource Loading & Accessibility (0 images)	UI/UX & Visual	PASSED	0.28s
TC-004	Verify Interaction Form and Input Validations	Functional / Validation	FAILED	0.66s
TC-005	Verify SSL Protocol Security & Load Performance	Security / Performance	PASSED	0.77s

Critical Bug Reports & Analysis

BUG-001: Validation Failure on: Verify Main Homepage Load and Responsive Structure

Test Case Association:	TC-001
Severity Level:	MEDIUM
Root Cause Hypothesis:	The element was not located in the DOM during execution. This could be due to slow loading scripts or dynamic state changes.
Suggested Correction:	Ensure elements are loaded before asserting by utilizing explicit waits, or verify the element selectors correspond with updated codebases.

Steps to Reproduce

- Open the target website URL: https://chatgpt.com/
- Perform the workflow steps corresponding to test case TC-001
- Verify the assertion constraint on the page layout

BUG-002: Validation Failure on: Verify Interaction Form and Input Validations

Test Case Association:	TC-004
Severity Level:	HIGH
Root Cause Hypothesis:	No forms or input tags were discovered, or standard action handles like Submit are missing. This blocks basic interaction funnels.
Suggested Correction:	Provide standard input wrappers for user queries and ensure buttons have suitable event triggers or type attributes set.

Steps to Reproduce

- Open the target website URL: <https://chatgpt.com/>
- Perform the workflow steps corresponding to test case TC-004
- Verify the assertion constraint on the page layout
