

TESTLY AI — AUTOMATED QUALITY REPORT

Intelligent autonomous QA agent test execution details

Target URL:	http://localhost:5175/
Execution Browser:	Chrome
Timestamp:	2026-08-08 16:11:31
Test Coverage Summary:	Total: 5 Passed: 3 Failed: 2 (60.0% Success)
Report Status:	ACTION REQUIRED

Test Execution Summary

ID	Test Case Name	Category	Status	Duration
TC-001	Verify Main Homepage Load and Responsive Structure	Functional / SEO	PASSED	0.47s
TC-002	Validate Link Integrity & Hyperlinks (0 links)	Functional / Navigation	PASSED	0.02s
TC-003	Audit Image Resource Loading & Accessibility (0 images)	UI/UX & Visual	PASSED	0.02s
TC-004	Verify Core CSS and Layout Flow Check	UI/UX & Visual	FAILED	0.08s
TC-005	Verify SSL Protocol Security & Load Performance	Security / Performance	FAILED	0.08s

Critical Bug Reports & Analysis

BUG-001: Validation Failure on: Verify Core CSS and Layout Flow Check

Test Case Association:	TC-004
Severity Level:	HIGH
Root Cause Hypothesis:	No forms or input tags were discovered, or standard action handles like Submit are missing. This blocks basic interaction funnels.
Suggested Correction:	Provide standard input wrappers for user queries and ensure buttons have suitable event triggers or type attributes set.

Steps to Reproduce

- Open the target website URL: http://localhost:5175/
- Perform the workflow steps corresponding to test case TC-004
- Verify the assertion constraint on the page layout

BUG-002: Validation Failure on: Verify SSL Protocol Security & Load Performance

Test Case Association:	TC-005
Severity Level:	CRITICAL
Root Cause Hypothesis:	The website does not force HTTPS redirections or does not support SSL protocols, exposing user connection data to network interception.
Suggested Correction:	Install valid SSL certificates on the server (e.g. Let's Encrypt) and force HTTP to HTTPS redirection using webserver config files (Nginx/Apache).

Steps to Reproduce

- Open the target website URL: http://localhost:5175/
- Perform the workflow steps corresponding to test case TC-005
- Verify the assertion constraint on the page layout
